

eSIMs - The future of connectivity

> WHAT IS AN ESIM?

An eSIM is a digital SIM that allows you to activate a mobile data plan without having to use a physical SIM.

eSIMs are the future of mobile connectivity. Future proof your connectivity by onboarding this seamless connectivity process today.

> WHY CHOOSE ESIMS?

eSIMs can be activated with just a few taps, providing the user the ability to switch between different networks. eSIMs are ideal for those travelling abroad who want to access a local network and avoid roaming charges.

Additionally, eSIMs provide flexibility, cost efficiency, remote provisioning and stand out as the environmentally conscious choice for connectivity.

> WHY CHOOSE CELLHIRE FOR ESIMS?

Cost-effective eSIMs available on the leading UK networks Vodafone, EE and O2.

Global roaming utilising Cellhire's eSIMsmart MVNO powered by Orange France.
